

EPIQ GRAND ROUNDS

Session 14

The Challenge of Premature Infants Extubation - Art, Science and Gamble

Objectives:

- Recognize the challenges associated with the decision to extubate extremely preterm infants.
- Describe the multiple risk factors associate with extubation failure.
- Uncover the methodological difficulties of the published literature.
- Recommend strategies to improve extubation success.

Presented by:

Dr Guilherme Sant'Anna

Dr Guilherme Sant'Anna is a Full Professor of Pediatrics, Faculty of Medicine, McGill University. His research interests are to better understand and optimize the respiratory assistance in preterm infants and the use of innovation and new technologies in neonatal intensive care. In collaboration with Biomedical Engineering and Computer Science at McGill University, and multiple international collaborations, he is working on the development of a SMART NICU/HOSPITAL by using wireless technology and advanced monitoring systems.

WEDNESDAY APRIL 17TH, 2024

Length: 1 hour

11 AM PST / 12 PM MST / 1 PM CST / 2 PM EST / 3 PM AST / 3:30 PM NST
