

EPIQ GRAND ROUNDS

Session 16

Less Invasive Surfactant Administration (LISA) in the German Neonatal Network

Objectives:

- Learn about patients receiving LISA and long-term outcomes.
- Learn about LISA as part of a less invasive delivery room management.
- Learn about monitoring and treatment after LISA.

Presented by:

Prof. Dr. Wolfgang Göpel

Prof. Göpel is founder and primary investigator of the German Neonatal Network (GNN). This prospective cohort study is supported by the BMBF since 2008 and has enrolled more than 24.000 preterm infants. Until 2024, more than 3.500 children (who were enrolled in the GNN between 2009 and 2013) were tested at 5-7 years of age and 500 children at age 10-14 years. Prof. Göpel was the primary investigator of the randomized controlled AMV trial (Lancet. 2011; 378:1627-34), the pro.LISA RCT (Trials. 2023 Sep 26;2:612. doi: 10.1186/s13063-023-07603-7) and co-primary investigator in the randomized controlled NINSAPP-trial (JAMA Pediatr 2015; 169:723-30). In addition, Prof. Göpel participated in numerous clinical trials.

WEDNESDAY SEPTEMBER 11TH, 2024

Length: 1 hour

10:00 AM PDT / 11:00 AM MDT / 12:00 PM CDT / 1:00 PM EDT / 2:00 PM ADT / 2:30 PM NDT
